

Greetings Quilting Friends,

If you're participating in our project starting with an orphan block, it's time to think about the next (last) row instruction.

April

Start with an orphan block and add a row to it that includes stripes. It can be one on just one side or two or a full on border of your choice.

May

Add a border or partial border that includes HSTs - Half-square triangle blocks. Put them together in whatever configuration pleases you. I look forward to seeing all your interpretations!

June

Add some words this month. Put them in the border or on your quilt top. The words can be on the fabric or added as applique, do whatever you like. Other artists sign their work on the front..just sayin'

July

For July, add a row or a full border of square-in-a-square blocks. There are several different interpretations, so do whichever pleases you. And.. because it's July, add in a bit of Canadiana where you can. Maybe you can find a little maple leaf, or go for a red and white theme.

This is what mine looks like so far. I want a small quilt, so my pieces are little.

August

This is my last instruction for this project. Feel free to continue adding whatever pleases you to achieve your desired size.

For August, add a row or round that has circles - either in the fabric or added to your project with whatever technique you like.

I'd love to hear your feedback - did you enjoy this project and are you interested in doing another in the future?
